Technique 1: Use Different Line Widths for Contrast

Draw outlines with **Pigma Micron** finner point, 005 or 01, then draw with **Pigma Micron** bolder point, 03, 05 and 08 for enhancement of contrast. The technique makes artworks verve.

Technique 2: Use a Blender for Gradation

Use **Koi Coloring Brush Pen**, **Blender** for making gradation and mixing colors. The **Blender** contains only transparent ink. Put colors with **Koi Coloring Brush Pen** and spread the colors with **the Blender** before colors dry up.
